

LINN table

Design by
Pent Talvet
iseasi

In the creation of Linn family we set the goal of nothing less than reaching the greatest comfort and elegance, worthy of a modern city. Our approach was to make the design look selfless and obvious at first glance but appear beautiful to the attentive upon a closer look, while surprising with its comfort. Having these ideals in our minds - Linn was born. Being classy enough and completely free of excess, Linn is ideal for supplementing an historical venue in a modern angle, meanwhile modern enough to stand out convincingly in the context of contemporary architecture.

FEATURES

Elegant and graceful, suitable for various environments.

Designed with accessibility in mind, allowing people in wheelchairs to comfortably come to the table and take part in social activities.

To ensure the longevity of the products in the demanding public outdoor environment, careful consideration has foremost been given to the selection of wood thicknesses and the radiuses of the wood edges.

No visible fixing materials on the top surfaces of the wooden parts to ensure a pleasing look and feel of the products.

EXTERY quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.

METAL

The frame is available in powder coated hot-dip galvanized steel. The hot-dip galvanizing is done according to ISO 1461:2009 standard.

RAL recommendation by designer:

RAL 7016
+ graffiti protection

RAL 7039

Antique silver

WOOD

The wood selection includes double layer oil coated knot-free thermo-treated ash and tropical wood. Tropical wood has no top coat.

Thermotreated ash (oiled)

Tropical wood

INSTALLATION

Freestanding on a firm base.

Anchored to a firm foundation.

Material marking in product code:

a- thermotreated ash
t- tropical wood

Example of the code use for long table with tropical wood: LINT180-t
